

Sparrows Tale

A game of Adventures and fantasy that will take place on a mighty ship in the high seas. We will have to brave sea creatures and other crazy beasts!

The Game Master's role is to get all the users involved at any skill level... this will allow the players to become as involved as they feel comfortable.

2-5 players that will go on an adventurous quest to _____(well you choose that part don't you!)

Each Quest should last about an hour or longer depending on the gameplay. During our play we will be taking regular 15 minute breaks.

During a quest, players have a chance to earn Sparrow's shillings by unlocking special puzzles and games that require social and behavior cues to finish the quest. The Sparrow's shillings can be used for in game play to buy the chance to buy goods and services from other players.

The game over all is a game of group winning. This is not a game of winner takes all. Fair game play and respectful camaraderie is the best route to take play this game.

Welcome!

My name is April Martin and I want to invite you to come on an adventure today with me and my friends from the Hive. We are very excited to have you along today.

First I would like to go over a few rules that we all must go by to have a fun time.

- Please remember that we are all learning together, so that means:
- Be patient
- Do not be afraid to ask questions
- Share your ideas
- Be kind to others
- Be proud of your creation
- Everyone must wait their turn and be polite to one another or you will have to sit out.
- If you have a question please feel free to ask, THERE ARE NOT DUMB QUESTIONS.

****Please make sure that you or someone with you takes notes on the ideas that you come up with so we always know where we are.****

What is a role playing game or RPG?

A good role playing game can be played with as little as 2 players or as many players as you would like to allow.

Personally, I love table top role playing games. They are nostalgic. I love the character development and the story lines. I love the immersion of inventing new worlds and creating lasting friendships with the people that you play with. It is a safe environment just to be yourself, and that goes with larping as well, which I think is a wonderful way of socialization and real world character building skills such as:

Self esteem building

Team building exercise

Spacial awareness

Manners

Memorization

Patience

Structure

Turn taking

Creative play

Trust: in one's self and others

For me, role playing games are an extension of my imagination, The game is indeed fun but I love the collaboration of storytelling with my friends or sometimes complete strangers.

We are so glad you will be joining us in this adventure!!!

Let's get started!!
